

# Stairway to Heaven

Be Your Own Pet

A stairway to heaven

Lean on my shoulder, lean on my shoulder  
I want another year older  
Lean on my shoulder, lean on my shoulder  
And share a bed with me  
Lean on my shoulder, lean on my shoulder  
I want another year older  
Lean on my shoulder, lean on my shoulder  
And share a bed with me

Get this something out of my head  
There's too much shit going on my brain  
Hurry hurry hurry hurry  
Cause I think I'm gonna go insane

Whatever whatever whatever whatever  
I know I know you know you're clever  
So seduce me, introduce me  
On the list you've had forever

My brain is on fire, my brain is on fire  
So whisper in my ear  
When it's all over, when it's all over  
You can come and kiss me right here

My brain is on fire, my brain is on fire  
So whisper in my ear  
When it's all over, when it's all over  
You can call me, kiss me right here
