

Agony

Beach Fossils

Take a pill and go to sleep
I'm chasing witches in the street
I'm the last page in your book
Can't write a song, only do hooks
Watching horses in the fields
The dragon rests in agony
When I'm afraid I lose my mind
It's fine, it happens all the time
When I'm afraid I lose my mind
It's fine, it happens all the time

Isolation caved in
I adore you, the sound of your skin

So many lies that I found
Blood, Heaven, night stick to the ground
So many times I realized
What I seek for is right in front of my eyes
I'm alone in a hole in the ground
A theater of ducks is still around
My furniture has come alive
I'm dancing with a candlestick tonight
Flying kites reaping outside my window
Smiles with fries

Isolation caved in
I adore you, the sound of your skin
