

Be Nothing

Beach Fossils

All you got
All you got
Is never had nothing
You wish you had something

All you want
All you want
You always had something
You wish you had nothing

Gone too wrong to get back home
Did you find our ocean
Or where you just floating
Now so strong all along
I tell you don't ?
'cause you're never gonna trust it

Be nothing
Be nothing

Be nothing
Be nothing

All you want
All you want
Is never had nothing

All you got
All you got
You always wanted something
