

Caustic Cross

Beach Fossils

I don't feel sorry for the things that I've done
I won't be blamed when everything's going wrong

And now you said it
And you're finally feeling strong
But what I told you was the truth
I'm all along

And in my head I know I finally found a way
But now my time is off
And I have gone astray

I'm beating my head on my hands
Beating my head on my hands

I don't feel sorry for the things that I've done
I won't be blamed when everything's going wrong
Beating my head on my hands
