

In Vertigo

Beach Fossils

And when the one on me
You'll see just where we go
And if you wanna have,
We'll meet in vertigo

Say something right
As we go out into the night
Say something real
I wanna steal what we feel

Forgetting everything
We'll go on and disappear
And feel the close is near
We'll scream into the wind

Say something right
As we go out into the night
Say something real
I wanna steal what we feel
