

If you find a reason
I'll be gone in a matter of time
This was your decision
Oh you got me in a state of mind

I wish that there could be another way
But I know that you've been on your mind
You know there's nothing left for me to say
That won't change your mind this time

How to find a reason
Television and another headline
Don't believe in Jesus
Heaven knows I'm wasting my time
Wanna believe in America
But it's somewhere I can't find

I wish that there could be another way
But I know that you've been on your mind
You know there's nothing left for me to say
That won't change your mind this time
