

Social Jetlag

Beach Fossils

Say that you want me here
And I'll find a door
Then you open up my hand
Where you wanna go

Can't waste all our time over again
Can't waste all our time over again

Make our way up to the roof
And I wait for days
In the shadow of the night
I wanna fade away

Can't waste all our time over again
Can't waste all our time over again
