

## That's All for Now

Beach Fossils

It's new regret  
Isn't it funny how we forget  
It's too late for that  
You're off on your own

Used to be up for anything  
You were the highway star  
And of all your spar

Keep moving on  
Keep moving on

That's all for now

Nights that we forgot  
Everyone  
But i woke up back again
