

What A Pleasure

Beach Fossils

Woken up and here I am
All too fast to understand
All the way across the sea
Thinking thoughts of you and me
In my life, I've never felt so free
You're so far away from me

What a pleasure all this is
I take it all the way
I take it all the way

I take it all the way
I take it all the way
I take it all the way
I take it all the way
