

## Youth

### Beach Fossils

It's not so worth getting all bent out of shape about  
I turn my back on it and next you know it's all wrung out  
Do you want to step outside or do you want a ride  
I don't know just what I feel but I feel it all tonight

I give it all in these hours that we set aside  
I know I'm feeling grief but that's because my heart's so tired  
Don't wanna dream, thinking all our thoughts are only true  
We've got enough to spare cause we're awake through half our youth
