

Clean Up California

Bear Hands

Pops a buck's own in the drop zone
Crown Vic carfentanil car coal
I'm too young to die, thanks for asking
I can't tell a lie, fading faster

I went to California
Tried to clean it up
Turns out that California
Ain't gon' be enough

No regrets, no remorse
No romantic gesture to force
I'm too dead down here
Cannot hack it
I'm too high to care and nothing matters

I went to California
Tried to clean it up
Turns out that California
Ain't gon' be enough

China white or black tar
Wherever you go, there you are
Just a junkie, my
Friends and family
Couldn't recognize
What I became

I went to California
Tried to clean it up
Made for the southern border
Geographic solution
(I went to California
Tried to clean it up
Made for the southern border
Geographic solution)

I went to California
Got ground into dust
Don't say I didn't warn ya
I told everyone
Drove down to south Florida
Hit the pillows hard
Then slept into a coal mine
Goodbye my sweet love
Goodbye my sweet love
Goodbye my sweet love
