

Confessions

Bear Hands

I've got too much pride and extravagance
Get me alone and show me
What's the best way to do it if I wanted to? Down or across?
Will you cut the cord? Will you turn the lights off?

We made amends, time to confess
We started living on the internet
We can't hope in the current climate
We can't keep from spiraling down again

Can we get a "rock"? Can we get a "woo-hoo-hoo"?
Can we get lost on our way home?
Can we get down, fuck around just because
We made it this far and that's enough

We made amends, time to confess
We started living on the internet
We can't hope in the current climate
We can't keep from spiraling down again

(Down again, down again)
(Down again, down again)
Like the fallen angel (Down again, down again)
Couple of formally famous (Down again, down again)
Will you act your age, kid? (Down again, down again)
Will the walls come cave in? (Down again, down)

We made amends, time to confess
We started living on the internet
We can't hope in the current climate
We can't keep from spiraling
We made amends, time to confess
We started living on the internet
We can't hope in the current climate
We can't keep from spiraling down again
