

## Déjà Vu

Bear Hands

I'mma get shit stated while you watch, stopping at the bar  
Yeah I'mma get fucked up while you sip on your Evian  
Exit as my song comes on, argue all you want, you know I'm driv  
ing home  
Oh, did I just see you crying in my rear-view?  
It's like déjà vu, déjà vu

We could go the distance  
Nothing that you could say to me would make a difference  
Déjà vu, déjà vu

Back and everybody's asking  
Bout whatever happened with that girl last week  
As you can imagine I don't have the answers  
Maybe how I acted, can't regret that which I can't remember  
Oh did I just hear you? New lyric but same tune  
It's like déjà vu, déjà vu

We could grow the pinion  
Nothing that you could say to me would make it different  
Déjà vu, déjà vu

Broken rib, a broken jaw  
Open up and say ahhh  
A list of all my symptoms  
Tell me what you think I'm missing  
But you got to kill the pain doc

Déjà vu, déjà vu  
But you got to kill the pain doc  
Déjà vu, déjà vu  
Déjà vu, déjà vu
