I might be in too much debt with the hell in my head I'm way too aggressive
The nervous ticks, the twitch in my neck
I'll never suppress it

How's the view up on your throne today? Are you ruling with an iron fist? Rejoice in your sickness Mental diseases Twisted philanthropist

Will you bite your tongue? Will you force your drugs? Will you still be here?

Chew us up, spit us out
You know what you're breeding
Lost aggressive youth
Push us back, hold us down
What were you expecting?
Lost aggressive youth
We are the faces lost in the crowd
We may be down but we'll never be out
You will hear our sound
You know what you're breeding
Lost aggressive youth

Are you feeling any agony?
Has the power made you start to trip?
You keep on feeding
We'll keep on biting the hands of the arrogant

Will you bite your tongue? Will you force your drugs? Will you still be here?

Chew us up, spit us out
You know what you're breeding
Lost aggressive youth
Push us back, hold us down
What were you expecting?
Lost aggressive youth
We are the faces lost in the crowd
We may be down but we'll never be out
You will hear our sound
You know what you're breeding
Lost aggressive youth

Does it strike a nerve?

If my voice is heard

You've lost all control of me

It's time to find the edge

Time to seek revenge

I don't have any sympathy

Now we're lashing out

Now you start to doubt

Take a look at your reality We're the living proof We're the harshest truth All thanks to you We're the aggressive youth

Chew us up, spit us out
You know what you're breeding
Lost aggressive youth
Push us back, hold us down
What were you expecting?
Lost aggressive youth
We are the faces lost in the crowd
We may be down but we'll never be out
You will hear our sound
You know what you're breeding
Lost aggressive youth
