

Moments Like These

Beauty's Confusion

I swim
With the sharks
Playing in salt water
It's cold and always dark
I am
All alone
To live life on terms to call my own

One day
I went too far
Swam in shark-finned waters
In their net I was caught
They stared at me so cold
Their lives without meaning
Their minds never grow

You'd say I ran away
While you stayed to play
With facades in shallow graves
This is not my scene
It's your thing
To be the life of every moment
While I live inside my dreams

Moments like these
Revealing the true me
Moments like these
Seeing so clearly

I hide with the ghost
Playing in the darkness
It's what i love the most
I am all alone
Enjoying the silence
Enjoying my home

You'd say I ran away
While you stayed to play
With facades in shallow graves
This is not my scene
It's your thing
To be the life of every moment
While I live inside my dreams

Moments like these
Revealing the true me
Moments like these
A side you will never see

Moments like these
Revealing the true me
Moments like these
A side you will never see
