

# I'm In Love With You

Bebe Winans

You have always loved me, this I agree  
And in spite of your love I chose to leave  
Now I'm here, here all alone  
Umm now I see you're all I need  
And pray someday your heart can find a way

And if it takes my whole life trying to prove  
I don't mind cause I'm in love with you

There's is no excuse for all I have done  
And things wont be right till your trust I've won  
And you here right by my side  
Umm I'm for real no plays this time  
Cause you mean the world to me  
So until you believe

And if it takes my whole life trying to prove  
I don't mind cause I'm in love with you

Oh my love don't part from the start were to be  
Take my hand don't let g, you and I forever more  
Yes I'm willing to wait and stay until that day

If it takes my whole life trying to prove  
I don't mind cause I'm in love with you  
And if the cost means my heart forever true  
I don't mind cause I'm in love with you
