

Back To Me

Bebo Norman

Oh my love, don't you cry
I won't leave you alone tonight
So put your hand back into mine
And I will hold you until the end of time

I hung my hope on your return
Now all that sorrow so soon will burn
So tend my heart with tender hands
And see your sunshine pouring in

All the world is at my feet
Cause you came sailing back to me

So look around you and look outside
A great big love and the big blue sky
And all the spring, and all this light
And all these treetops, well, they're all mine
