

Just To Look At You

Bebo Norman

I would give my soul just to look at you
And everything I know just to see it through
To let all the others fade away
And turn all my darkness into day
My love, I would give my soul just to look at you

Would you believe in me
Or would you walk away in need
Would you believe in me
Or would you turn away and leave
Either way, my love
I would give my soul just to look at you

If you found my heart would you run it dry
And break it all apart just to run and hide
And make all the colors fade away
Into another shade of gray
My love, I'd still give my soul just to look at you

Would you believe in me
Or would you walk away in need
Cause I don't know where, and I don't know how
But I just want to see you now
So would you believe in me
Or would you turn away and leave
Either way, my love
I would give my soul just to look at you
