

## Friends

Becca

When your lips touched mine,  
something from deep inside  
Feeling oh so shy,  
only you know how I felt that day  
Things I said to you, oh we were all alone  
Gotta let you know,  
one by one, all the dreams we shared  
Baby, don't you ever let them go.  
Don't you forget  
They're our secret memories, oh  
It was you through the hard times my old friend  
All of the times we shared,  
tell me where have they gone  
Hold my hand. All I need is my old friend  
Just think of you and I feel my heart stop

Not so long ago, do you remember when?  
Singing quietly in the dark,  
it was your favorite song  
Oh that melody, so sad it haunts me still  
Just the two of us, all alone, a feeling so strong  
Can you tell me where the time has gone  
I turn around. All I see, you and me oh  
Maybe some day you'll come back my old friend  
You're so far away you're just a memory  
But I won't ever forget my old friend  
You're deep inside of me, a part of me

It was you through the hard times my old friend  
All of the times we shared,  
tell me where have they gone  
Hold my hand. All I need is my old friend  
Just think of you and I feel my heart stop

Maybe some day you'll come back my old friend  
You're so far away you're just a memory  
But I won't ever forget my old friend  
You're deep inside of me, a part of me
