

# See Through

Beck

Summertime nights, I'm gonna run to meet you  
Coming out of my life, you know I'm trying to reach you  
Coming out of the sun, you know I'm bound to meet you  
Coming out of my mind, you know I'm dying to reach you, whoa  
I can see through, I can see through  
I can see through you now  
I can see through, I can see through  
I can see right through you now

See through  
You and I can always see through  
See through  
You can see how much I need you  
See through  
See how much I really need you  
See through  
See how much I really need you  
I'm gonna need you all night now  
I think I'm gonna need you all right now

Summertime nights, I'm gonna run to meet you  
Coming out of my life, you know I'm trying to reach you  
I feel so ugly when you see through me

See through  
You and I can always see through  
See through  
You can see how much I need you  
See through  
See how much I really need you  
See through  
See how much I really need you

Coming down now, I need you  
Coming down, gonna need you  
Someone's out, got to get them  
When it's dark out, I see you  
Coming down now, I need you  
Come and see what I'm going through  
Now I need you, you need me  
I'm running that feeling  
Summertime nights, I'm gonna run to meet you  
Coming out of my mind, you know I'm dying to reach you, whoa  
Something from nothing  
Something from nothing  
You want something from nothing  
But I got nothing left to give

See through  
You and I can always see through  
See through  
You can see how much I need you (I think I'm gonna need you)  
See through (All right now)  
See how much I really need you (I think I'm gonna need you)  
See through (All right now)  
See how much I really need you

Ohh

Hey, yeah

Mm-yeah

Yeah

Yeah

Yeah

I feel so ugly when you see through me

I feel so ugly when you see through me

I feel so ugly when you see through me
