

Stratosphere

Beck

Turn me around
Vision goes with the sun
Far above the ground
Halfway to oblivion

In the stratosphere
There's nowhere to go from here
In the stratosphere
I'll be back home another year

High as the moon
Earth below to comfort me
Needle to the spoon
Strike a match and let it be

In the stratosphere
There's nowhere to go from here
In the stratosphere
Somewhere I can disappear

In the stratosphere
There's nowhere to go from here
In the stratosphere
Be back home another year
