

Mountain Top

Bedouin Soundclash

It all came down today
There's not much left to say
We sit alone and stare
Hotel rooms in nowhere

But we're climbing back up to the mountain top
Climing to the mountain top
Call it what you want
Call it old punk rock
Up on the mountain top
Little bitty baby say: Don't you stop!
Up on the mountain top
Call it what you want
Call it old punk rock
Up on that mountain top

There's rain in Tokio
Somewhere we lost that song
Some things get lost and soaked
And some things might just get old

But we're climbing back up to the mountain top
Climing to the mountain top
Call it what you want
Call it old punk rock
Up on the mountain top
Little bitty baby say: Don't you stop!
Climbing up that mountain top
Call it what you want
Call it old punk rock
Up on that mountain top

And now comes the horizon
Hey!

So we're climbing back up to the mountain top
Climing to that mountain top
Call it what you want
Call it old punk rock
Up on the mountain top
Little bitty baby say: Don't you stop!
Climbing up that mountain top
Call it what you want
Call it old punk rock
Up on that mountain top

Climbing up that mountain top
Up on that mountian top
Climbing up that mountain top
Climbing up that mountain top
