

(Love Is Like) A Mystery

beFour

To everybodys heart there is a key

A key called love

But isn't it the greatest Mystery

So soft and tough

Memories come, memories go

And when they're gone time will show

Love is like a mystery

Just a game for you and me

Love is like a mystery

Over and over again

Love can be a tragedy

Sad and lonely it can be

Love is like a mystery

Over and over my friend

In every little flying Butterfly

Inside your heart

There lies this secret Key for you and I

Right from the start

Memories come, memories go

And when they're gone, time will show

Love is like a mystery

Just a game for you and me

Love is like a mystery

Over and over again

Love can be a tragedy

Sad and lonely it can be

Love is like a mystery

Over and over my friend
