Everything I Do

Bei Maejor

I need you to know, I need you to know I need you to know yeah, I do it for you, for you

I never listen when they say The more things seem to change the more they stay the same Cause' now it seems the only difference is the pain Cause' we don't even kick it no more

It's like I'm lost off in a maze You use to be my shawty Now you act like you don't know me Can't beleive that you just gon' walk out the door

You see I told that girl you were my world You see I know you could feel just like before If you only knew That everything I do, I do it for you

(Well I use to but now it's kinda' hard cause' You don't answer the phone)

I don't know what's going on You use to be my only Now you wana' leave me lonely I don't know how you can see that I adore you

(Everybody else can) Even though I'll be okay, you know them girls love me I still think it's wrong how you treat me so ugly Like you don't even care that I will give up everything for you

You see I told you that girl you were my world You see I know you could feel just like before If you only knew That everything I do, I do it for you For you, For you, For you...

Whatever happened to our life long arrangments Wintertime engangements, summertime weddings We'll never know where they buque went So what you doin' out, it's more than foul It's rather frangrent, cause' I was given you my all And You was just complainin' But If you with somebody, you should trust em' You'll never get the time to love somebody, If you judge em' And I never wana' be that guy you blame, but I was him And Now you still my fam, but not close, we like cousins So now I listen closely when you mad Cause' that's when the truth comes out And You say such crazy things, I don't know what that's about Okay, I know this ain't' the time & you probly should go But before you leave, somethin' that you probly shoud know is that

That everything I do, I do it for you, For you, For you, For you...

So Imean, I don't know but, nawh I don't regret it

You shouldn't never regret something that made you smile It's just, I don't know
