

I can see

Bek Ofis

I can see the people in the park
waiting for another lucky spark
Standing here, half a world away
Too afraid of word to say
like a childern withouth teeth
with heavy minds to relieve

I can see the fear inside their eyes
D' you feel them varing all their lies
Maybe not aware of what to do
But I can't see the trust
Trust in you
what've you made is underway
Don't you stand away
And I say

what's wrong whit you don't stop
is it all you've got
oh come on what you waiting for
don't make us feel OK
Save it for another day
You know (your) wonder fall
D'you believe the same old lies
No crime to criticize
You know (your) wonder fall
(Do you know the god we're looking for the peace we all adore)
you know (your) wonder fall
