

## If It's So Easy

Bellamy Brothers

They say that love is just a piece of cake  
They tell me love is just a give and take  
They make love sound like it comes easily  
If it's so easy why was it so hard for me

They say that love will sparkle in her eyes  
They tell me love's not hard to recognize  
They make love sound like it's not hard to find  
If it's that easy what was it made me so blind

If love is good and love is great  
Why don't they make love too good to break

My friends tell me that I will love again  
But I'm much wiser now than I was then  
I've seen how easy love can change its mind (Change its mind)  
It does so easy that's why I'm so scared this time

If love is good and love is great  
Then why don't they make love too good to break

I've seen how easy love can change its mind (Change its mind)  
It does so easy that's why I'm so scared this time  
It does so easy that's why I'm so scared this time
