

In my garden  
We were golden  
Then you walked away  
In my garden  
You were something, there  
You walked to me  
Buried in my garden  
I see you there  
Buried in my garden  
I will catch you there  
That once, in my garden  
Broken my shell  
That once in my garden  
Be there in my garden  
Be there in my garden  
In my garden  
We were golden  
Then you walked away  
In my garden  
We were something there  
You walked away  
Buried in your garden  
I'll see you there  
In my garden  
I will catch you there  
I was in my garden  
Buried myself  
I was in my garden  
Buried myself  
Be there in my garden  
Be there in my garden
