

# Gypsy Rose

Ben Kweller

Oh gypsy rose  
I will wait for your sun to shine  
Now youve got me goin somewhere no one could find  
All in my life its the world that makes me cry  
Oh summer day go back home  
Give your body away  
Milky arms and legs wrap around this neglected frame  
And the world will make you cry  
Yea the world wont tell you why  
But this world wont make you die  
Cuz I loved you right  
Oh gypsy rose  
You got me swallowed up in your streets  
Bring your food, money, shoes  
Just to lie here with you beneath your sheets  
I see hope in your eyes  
Its the world that makes you cry  
Rose I got no friends  
I got no kids and I dont got kin  
My one salvation is the warmth of your skin  
And this world will make you cry  
Yea the world will make you lie  
Oh the world will suck you dry  
Oh but I love you right  
Oh summer day go back home  
Give your body away  
And when I wake  
Youll have saved my life
