It's sad and spent
Feel the motion again
Stop and pause
Then move some more

Still surprise you when it shatters
But nothing matters
Still surprise you when it shatters
Don't you know that nothing happens
But a lot goes on
A lot goes on
But nothing happens
A lot goes on
But goes on
But nothing happens

Choose a town
Find a girl to follow around
Stay on track
And just sit back

Still surprise you when it shatters But nothing matters Still surprise you when it shattered Don't you know that nothing happens But a lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens But a lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on

But nothing happens
