

# Run

Ben Lee

I feel you in the sidetrack  
I'm reaching out for contact  
To keep you on my mind  
And are you close to breaking?  
I'm sorry if you're aching  
But I don't wanna hide  
I feel you somewhere downtown  
I hear you in the low sounds  
I bleed until I'm cut  
And I'm still thinking of you  
I promise I can love you  
If you can keep it up

Run if you want me, you're moving too slow  
Run if you want me, whoa  
Run if you want me, you're moving too slow  
Run if you want me, whoa

The secret that I'm keeping  
The moment that I'm reaching  
The image on my mind  
I feel you in the outback  
I'm holding out for contact  
But you're so far behind

Run if you want me, you're moving too slow  
Run if you want me, whoa  
Run if you want me, you're moving too slow  
Run if you want me, whoa

Wake up, jumpstart. You're name across my heart  
Someone dragged mine, until the finish line  
Slow burn, U-turn. Still laugh at lesson learned  
Fun, damage done. If you want me you gotta:

Run if you want me, you're moving too slow  
Run if you want me, whoa  
Run if you want me, you're moving too slow  
Run if you want me, whoa  
Run if you want me, you're moving too slow  
Run if you want me, whoa  
Run if you want me, you're moving too slow  
Run if you want me, whoa
