We're All In This Together

Woke up this morning I suddenly realized We're all in this together I started smiling Cos you were smiling And were all in this together I'm made of atoms You're made of atoms And were all in this together And long division Just doesn't matter Cos were all in this together

I saw you walking In the city We're all in this together The city's changing Cos we are changing And were all in this together Every twelve seconds Someone remembers That were all in this together In the kitchen Of your rent-control apartment We're all in this together

C'mon baby I dont mean to rush you I only wanted to reach out and touch you I've gotta start to open my heart

I know you think About jumping ship before it sinks But were all in this together Ask a scientist It's quantum physics We're all in this together And on the subway We feel like strangers But were all in this together Yeah I love you and you love her And she loves him But were all in this together

Y'know baby There's never been protection In all the history of human connection C'mon darling It's alright to show me You don't ever need to be lonely Once you start to open your heart

I saw you crying I started crying Cos were all in this together

And then religion

Ben Lee

It's a big decision But were all in this together

We're all in this together
