

Warriors Don't Cry

Beres Hammond

It's either you're in or out
Gotta know what you're all about
Be bold and strong
Tell yourself you're not doing wrong

Once you're in you've got to take it
Make your mind up son and face it
Because Warriors don't cry

I know lots of folks will hate you
And not because they want to
But sometimes they don't even know why

So don't watch the crowd
Their duty is to be loud
Believe in what you're doing
And feel proud
Cause when you fall along the way
People will have lots to say
They don't even care if you make it through the day

Either you're in or out
Gotta know what you're all about
Be bold and strong
Tell yourself you're not doing wrong

There is no true friend when you're hungry
Not if he is hungry too
At time you can't rely
Because the same brother
Will send you with the offer
Yes feels good and set him right

So don't watch the crowd
Their duty is to be loud
Believe in what you're doing
And feel proud
Cause when you fall along the way
People will have lots to say
They don't really care if you make it through the day

Either you're in or out
Gotta know what you're all about
Be bold and strong
Tell yourself you're not doing wrong

Either you're in or out
Gotta know what you're all about
Be bold and strong
Tell yourself you're not doing wrong

Once you're in prepared to take it
Make your mind up son and face it cause
Warriors don't cry

I know lots of folks who hate you
And not because they want to

But sometimes they don't even know why

So don't watch the crowd

Their duty is to be loud

Believe in what you're doing

And feel proud

Cause when you fall along the way

People will have lots to say

They don't even care if you make it through the day
