

# Light Show

Berner

All this jewelry on me, this jewelry on me, it's a light show  
All these hoods up, in that warehouse, it's a light show  
When them guns sparks, and it's dark out, it's a light show  
All these lights around the crib, yeah that's just the way we live  
It's a light show, it's a light show, it's a light show  
It's a light show, it's a light show, it's a light show  
It's a light show, it's a light show, it's a light show  
You see the stars up in the whip, yeah that's just the way we live  
All this jewelry on me, this jewelry on me, it's a light show  
All these hoods up, in that warehouse, it's a light show  
When them guns sparks, and it's dark out, it's a light show  
All this jewelry on me, this jewelry on me, this jewelry on me, this-

Yeah 150 grand on me, I'm guaped out  
I couldn't pay attention in school, I'm glad I dropped out  
I be riding round all paranoid when the cops out  
I keep a .40 in the dash, and the craziest stash  
Yeah my jewelry drip and my phone clickin', I'm tripped out  
I shipped out, 150 more then we dipped out, we dipped out  
No bank account, I keep the cash in a big house  
See the VVS' in the crazy necklace, with the brown bag I been gettin' reckless  
I been hood rich, big rocks and all that  
2 black bags, I'ma buy up all that  
Bust-Down glowin', look like a light show  
The stone in my ear, look like a light bulb  
In '03 I was OT, with the OG, tryna be low-key  
New crib in Hawaii, blue and red lightin', no cop behind me

All this jewelry on me, this jewelry on me, it's a light show  
All these hoods up, in that warehouse, it's a light show  
When them guns sparks, and it's dark out, it's a light show  
All these lights around the crib, yeah that's just the way we live  
It's a light show, it's a light show, it's a light show  
It's a light show, it's a light show, it's a light show  
It's a light show, it's a light show, it's a light show  
You see the stars up in the whip, yeah that's just the way we live  
All this jewelry on me, this jewelry on me, it's a light show  
All these hoods up, in that warehouse, it's a light show  
When them guns sparks, and it's dark out, it's a light show  
All this jewelry on me, this jewelry on me, this jewelry on me, this-

Foreign whip with my foot on the gas  
Fish tailin, I was showin' my ass  
Smoking some shit, you consider it grass  
Exons still consider it gas  
Chick on the side of me startin' to spazz  
Slow it down, bae you goin' too fast  
Ching-boaw, I'm behind all that ass  
She No sleepin' alone, I'm sleepin' with you  
Half of the time, that ass on my mind  
She back in town from Majisa Bhajan  
Red bottom, Christian Louboutin  
Tell Berner, he gon come with a ton  
Brick player, I'ma pray with a don  
Off-White, not the regular 1's  
Cook dope, while she thumbin' through funds

She legal so she clutchin' the gun  
Hit jail, I'ma need her to run  
Hit the stash spot and come with a trunk  
Jump bail, run it up in the clutch  
Earring, vroom, Formula 1  
Diamonds diving, they performing a jump  
Teeth hittin' and they glisten too much  
Limoncello gettin' stuffed in a blunt

All this jewelry on me, this jewelry on me, it's a light show  
All these hoods up, in that warehouse, it's a light show  
When them guns sparks, and it's dark out, it's a light show  
All these lights around the crib, yeah that's just the way we live  
It's a light show, it's a light show, it's a light show  
It's a light show, it's a light show, it's a light show  
It's a light show, it's a light show, it's a light show  
You see the stars up in the whip, yeah that's just the way we live  
All this jewelry on me, this jewelry on me, it's a light show  
All these hoods up, in that warehouse, it's a light show  
When them guns sparks, and it's dark out, it's a light show  
All this jewelry on me, this jewelry on me, this jewelry on me, this-
