

Stopped believing when my mom stopped breathing  
Watch my cousin get locked after 4 cops beat him  
Hit the gas I just can't stop speeding  
Go and tell these bops I do not need'em  
I miss my daughter man this world got me sick  
I'm in a cheap hotel buying more bricks  
3 letter boys got me sweating in my sleep  
Rolling up in the morning, white ashes on my sheet  
Got a girl Madera, pussy taste like a piece  
Pushing way got my name buzzing way in the street  
The good die young and God damn I'm great  
Leave my name on the wall with a can of pay  
New coup rest in peace shit taste like a fruit  
I'm looking out my window watching little kids shoot  
What happened to the youth? They're crazy, crazy

Times changing, thinking bout life mile racing  
Trying not to get my life taken  
The world's gone crazy, crazy, crazy  
The world's gone crazy  
Times changing, thinking bout life mile racing  
Trying not to get my life taken  
The world's gone crazy, crazy, crazy  
The world's gone crazy

Keep wishing wise God, keep pushing  
On the led don't get yo life token  
Smiles to my enemies I'm laughing  
130 grand stuffed in a dirty mattress  
If I write yo address on a box of matches  
You will be gone in the morning, call it magic  
I don't fear death but I'm scared of cancer  
I was 19 fell in love with a dancer  
Mind racing all this time that I'm facing  
Times changing friends die and engagements  
I used to ride dirty but now I'm low key  
Cooking OG got me feeling so clean  
New life rest in peace pretty blacks  
Slapping for this is for popping out the back  
I'm looking out my window watching little kids shoot  
I look up to the sky and say 'Why?'  
This world so crazy, crazy, crazy

Times changing, thinking bout life mile racing  
Trying not to get my life taken  
The world's gone crazy, crazy, crazy  
The world's gone crazy  
Times changing, thinking bout life mile racing  
Trying not to get my life taken  
The world's gone crazy, crazy, crazy  
The world's gone crazy
