

Black Spell of Armageddon

Bestial Mockery

Corpses smell makes me fucking hot
Battlefields silent filled with fucking sluts
Women and children and servants of god
Licking corpses cunt filled with fucking blood

Tanks are rolling under black spell fucking
Raping the holy land with destination hell
Venom n my veins and mayhem in our eyes
Our last goal the world will fucking lie

Rape kill burn it all
The voices won't live me alone
Rape kill I've been blessed by the flames
Drenched in blood venom in my veins

Under black flags teh servants of war
Slowly moving forward with one fucking goal
Voices whispering my name in tongues
Possessed with hate and fire in my lungs

Like a machine I rip up the corpses flesh
Voices whispering : "kill the human trash"
The sky is black and the ground is red
Armageddon curse is done the world is FUCKING DEAD

Armageddon die
Armageddon suicide
Armageddon die
Armageddon suicide
Die die die die
