

When I Feel This Way

Beth Nielsen Chapman

When I feel this way
Doesn't matter what I say
There are no words good enough
When I feel this way
Wrapped up in your arms, oh baby
My whole world is your love

Let's erase the doors and windows
Paint a silver moon
There is nothing more I'll ever want outside this room...
When I feel this way

When I feel this way
You can find out anything about me
I won't hide
When I feel this way
I know I could never be without you by my side

Let's erase the doors and windows
Slow these moments down
You're the only one I want around
When I feel this way

Let's erase the doors and windows
Let me show you how
You're the one my dreams are all about
When I feel this way
