

Down

Betraying the Martyrs

The story goes
A million miles and a thousand shows
Pure hearts of gold
Singing it back to the microphone
Singing it back to the microphone, yeah
Breathe in
Suck it in and spit it back, back
We ain't backing down
Live and die for the wolf pack

Down! Down!
Raise your fists, let's bring this place down! (Down!) Down! (Down!)
Hand in hand we fight together
When you scream with me
We tear this roof down! Down!
We shall raise this flag together

Set in stone
Forged by fire iron bones
In the zone
Lights go out and we lose control
Lights go out and we lose control, yeah
Unstoppable - feel the heat
Push it back, back
Keep it coming now
Scream until your lungs collapse!

Down! Down!
Raise your fists, let's bring this place down! (Down!) Down! (Down!)
Hand in hand we fight together
When you scream with me
We tear this roof down! Down!
We shall raise this flag together

We're a fucking tidal wave of destruction
It's redemption time
Fucking wave of destruction, destruction!

Down! Down!
Raise your fists, let's bring this place down! (Down!) Down! (Down!)
Hand in hand we fight together
When you scream with me
We tear this roof down! Down!
We shall raise this flag together

Thunder, hear our call
Make the mountains fall
