

Eternal Machine

Betraying the Martyrs

The cogs keep turning
The earth keeps burning down
They gotta fuel the war machine
Crude oil and kerosene

A constant need
A hate to feed
In a world that's bleeding out
Catastrophe
Epanastrophe
A never ending cycle
An enterprise
Built on lies
An eternal industry
For the wheels to turn
The world must burn
Burn it to the ground

Always wanting more and more
Living the nightmare just to feed the dream
Spoiling the wealthy, depriving the poor
Make war to fuel the machine

Filthy production line
Twisted destructive minds
Does it get you off?
Arm the troops, it's feeding time

Devour!

Supply to demand
Create to destroy
Feed the fucking machine
Go!

Devour!

For the wheels to turn
The world must burn
Burn it to the ground

Always wanting more and more
Living the nightmare just to feed the dream
Spoiling the wealthy, depriving the poor
Make war to fuel the machine

Filthy production line
Twisted destructive minds
Does it get you off?
Arm the troops, it's feeding time

A thirst bloodshed
The hungry man
Ever eternal war machine

Unstoppable

Stop this train, let's derail the monster
The iron prince, cannot cease to breathe
Only flames, can ingite the fire
Annihilating, the war machine
