

Do with It

Betty Who

Can't hide it's so obvious
You've got a crush you've been feeling me
You've been trying to make it happen
Wanna know what you imagine
Can't lie that I'm curious
Come a little closer I wanna see
I've been loving the attention
Should we work out all this tension

Promise baby I won't bite
Not unless you want me to
You don't have to be so shy
Show me what you wanna do

I'll let you put your hands on me
Finally it's your lucky day
Now that you got me what you gonna do with it
Feels so right, changed my mind
After all this time
Now that you got me what you gonna do with it

Step up if you're man enough
I'll make you forget everything you know
Cause you don't got the credentials
But I see you got potential
Tonight we gon' live it up
Gotta do it big if you're trying to roll
Yeah I called you out the stable
Know you're willing are you able

Promise baby I won't bite
Not unless you want me to
You don't have to be so shy
Show me what you wanna do

I'll let you put your hands on me
Finally it's your lucky day
Now that you got me what you gonna do with it
Feels so right, changed my mind
After all this time
Now that you got me what you gonna do with it

Whatcha gon do, whatcha gon do
Now it's on you, now it's on you baby
Whatcha gon do, whatcha gon do yeah
Now that you got me what you gonna do with it
