

They Call It Love

Bettye Lavette

You weak on bother things we both don't love
We'd still haven't all a lot to learn
It's not unknown but the trying thats exits
That's my main concern

They call it love but I don't know
Is that one make us wanna hurt each other so
I'd like to turn my back but I don't know where I go
They call it love but I don't know

If I could just bring peace to your heart
I might bring peace to my mine too
Cos that's a secret that I just can seem to find
And the one thing I can seem to do

They call it love but I don't know
Do you think it's what makes us wanna hurt each other so
I'd like to turn my back but I don't know where I go
Y'all they call it love but I don't know

I swear I don't know...

Here we are all along with freedom
Do you feel your spin your spotted years
I ain't got no obvious where you are what you are doing
Somebody tell me (...)

They call it love but I don't know
Do you think it's what makes us wanna hurt each other so
I'd like to turn my back but I ain't got know the way to go
They call it love but I don't know...
