

Unbelievable

Bettye Lavette

It's unbelievable
Strange but it's true
Inconceivable it could happen to you

You got some going North
And some going South
It's just like the bate and the fish's mouth
You must be living in the shadow
Somehow an evil song

Unbelievable
To get this far
Undeniable were they have your pain
Indescribable if it rides a train
Versus in a book
It's all about money
Whoever thought it would make this step?
It's unbelievable
Every rule so certified

All the silver
All the gold
All the things your hands can hold
Don't be worried
The story is untold
Lay it on a dream

If a man would have no lies
And it would live in a land full of lies
You still be beneath the sky
And let it all bleed

Every brain is circulated
Every love is analyzed
Very man is criticized

Whatever you need is unbelievable
It's so impossible
And you can eat an earn this
You got to kill that bee
And eat that swine
Skill that rose
And smoke that wine

Eat the force inside that drum
It's unbelievable
This day wouldn't even come
Unbelievable
It would only happen to some
And you can eat an earn this
You got to kill that bee
And eat that swine
Skill that rose
And smoke that wine
Eat the force inside that drum

Unbelievable
