

Everlasting love

Beverley Craven

You fill my heart with desire
And I would give my life for you
Let me feel the passion in your eyes
Lying by your side
The whole night through

I need you now and forever
Even though we both know it's wrong
But to give you up I'd lose the only thing worth living for
Here with me is where you belong

And I'd pay the price a thousand times to share my life with you
I'd hold you close and never let you go
Cos I feel I've always known you
You're who I've been dreaming of
You are my destiny
And this will be an everlasting love

I confess I'm guilty of the crime
Of wishing you were mine forevermore
But I can't deny my emotions
And time will never change the way I feel

Cos you're everything to me and no one else could love you more
What we have is worth fighting for

And I'd pay the price a thousand times to share my life with you
I'd hold you close and never let you go
Cos I feel I've always known you
You're who I've been dreaming of
You are my destiny
And this will be an everlasting love.
