

Say You're Sorry

Beverley Craven

I know I'd forgive you
If you'd only take some blame
'Cos I'm not looking for revenge
I'm just tired of this game
It's gone beyond who's right or wrong
What's done is done
But too many things were left unsaid
And if not for peace of mind
At least I'll know I've tried
To make things right

Say you're sorry
Just say sorry
And I'll say I'm sorry too
Say you're sorry
If I mean anything to you

I can hear you thinking
You can't hide behind that smile
'Cos I can see it's all pretence
When I look into your eyes
This situation can't go on
We've hurt too long
But I know it's hard to find the words
If only you'd trust in me
Say what you feel inside
Forget your pride

Say you're sorry
Just say sorry
And I'll say i'm sorry too
Say you're sorry
If I mean anything to you
