

# Street Love

Biffy Clyro

We're gonna tear this apart  
With every inch of your heart  
We'll watch your all go astray  
Different in every way

Keep on  
Keep on  
Keepin' on  
I don't know whether I belong

Could this be  
A tragedy  
You had it all  
It set us free  
You still say no  
I say please  
Street love love love love love

We share a skeleton heart  
Let's shape the bone make it sharp  
It trickles all down your face  
Essential in every way

Keep on  
Keep on  
Keepin' on  
I don't know whether I belong

Could this be  
A tragedy  
You had it all  
It set us free  
You still say no  
I say please  
Street love love love love love

We could be  
A travesty  
Been holdin' on  
What a dream  
You still say no  
I say please  
Street love love love love love  
Street love love love love love

Could this be  
A tragedy  
You had it all  
It set us free  
You still say no  
I say please  
Street love love love love love  
Street love love love love love
