

## A Party For Santa

**Big Bad Voodoo Daddy**

Christmas time is the for giving We learn this when we are small  
But from year to year it's the same Ol' thing... Santa's coming to call  
We try to ignore it....or forget it This we know is true

So this coming Christmas Let's all make an effort Get a present for Santa too

Let's trade in the old sleigh And the reindeer For a big car and a chauffeur  
Get a helicopter Oh can't you see that everyone loves Santa too Yeah

Christmas is here And we're all having fun, Santa's brought presents  
For everyone But he had to squeeze through a Chimney for us  
What a horrible place to pass

Why not open your window? Or your front door? So Santa can bring his gifts  
He's climbing our rooftops And coming through our chimneys  
It's a whole lot of stupidity

Move him from the North Pole To Rio Give him an apartment With modern equipment  
A maid and a butler Let us show our love For dear Santa Claus Yeah

Everyone's drinking their Whiskey and rum Ol' Santa is getting on  
And his jingle bells, jingle bells Dear Ol' Santa Claus Is wearing those same old clothes

We should be ashamed, We should be plagued. To treat Santa Claus like a brute  
So let's chip in some dollars Get him to the tailors for a new Continental suit

Take him out to a nightclub Or a movie Get him some fine chicks  
throw him a party It's time to chip in And do our share To make sure he comes  
More than once a year
