Big D And The Kids Table

Chin-chin, chadda-wadda-wa hey

Finding love in other nations
Sunshine girls with late romancing
Steering through life like the last real caption
Feeling good's a simple combination

Tick, it's time now
Boom!

"You drink too much"-That's what my mother screams at me
"You look too rough"-My sisters are always naggin' me
"He don't try enough"-Teachers holler at me
But than I tune that all right out, Pop always said "You go live free"

So what's wrong ya'll?
Nothing at all!
Does the rest of the world know there's no stopping us all?

Play the music louder
Dance a little smoother
Stoke the fire bigger
And let's love a little longer

Winks from girls in other nations
Brought me to her favorite place then
Found shadows to share secrets in
Two free souls who got a lot in common
