## **ICU In Everything**

**Big Head Todd and the Monsters** 

Well I'm finished counting. Another game of hide and seek. I hear you running. I can feel your heartbeat now. There ain't nothing that's gonna keep me from discovering. You know I'm panting. I'll drink from your loving spring.

Missing you is ecstasy I see you in everything. Wanting you ain't suffering. I see you in everything.

Understanding Things ain't what they seem to be. All my planning Left me on the wrong street now. I don't need another one who's gonna shelter me. So come on baby, the cabby is waiting and the meter is on.

Missing you is ecstasy I see you in everything. Wanting you ain't suffering. I see you in everything.

And if we hesitate we might never know. So what if a heart should break We've been there before. So let it grow.

I turn around And then I find you Lord have mercy I was looking in the wrong direction Spellbound Time reminds you, Now you better take it cause this loving is real

Missing you is ecstasy I see you in everything. Wanting you ain't suffering. I see you in everything.
