

## Firefly

## Big Scary

Put it in a letter  
Roll it in a tally ho  
Leave it in the kitchen sink  
You are not the only one  
Though it never feels that way  
Humming to that song you hear  
I think that I can hear it too

Instruct myself  
And I'm on, and I'm on...

Caught up in a motion  
Swimming through a swirling now  
You put it in a bottle  
An ocean on a dusty shelf  
If you survive  
Then we're on, then we're on, and I'm wrong, then we're on...

And I'm feeling all tied up  
All I want is a cut  
But you're bleeding, now I see  
That enough is enough

And I'm on, and I'm on...

Call out to the sages  
You're putting out the feelers now  
It's 11:11  
And silence strikes the dreadful hour  
The heavens see that

I'm on but I'm faded, I'm on but I'm faded...

And I'm feeling all tied up  
All I want is a cut  
But you're bleeding, now I see  
That enough is enough

And I'm on, and I'm on...

Like a firefly to the moon  
Like a firefly to the moon  
Like a firefly to the moon

Like a firefly to the moon  
Like a firefly to the moon  
Like a firefly to the moon

It's a strange reunion  
When two and two equal one  
Held up by a matador  
No prize for the winning  
But maybe I will take a run  
Followed by a stinging  
Then I hear the crowd roar  
Standing at the door

And I'm on, and I'm on, and I'm on

And I'm feeling all tied up  
All I want is a cut  
But you're bleeding, now I see  
That enough is enough  
And I'm feeling all tied up  
All I want is a cut

And I'm on, and I'm on, and we're on...
