Way It Ought To Be

Big Tent Revival

If, if I Said I said I loved you Then it wouldn't be a lie So you say I didn't tell you often Now we disagree

Here we are fighting When we should be reuniting I say hey that's the way it ought to be Hey that's the way it ought to be

No big deal I told you I was sorry And that is how I feel Have your way You'll come running back I see it happen every day

Cuz maybe we've both been a bit too proud I'd say we've both been way too proud

Check this out Baby I've been thinking And I know without a doubt You and me We gotta go to Jesus He's the only remedy
