Big Thief

Oh, volcanoes melting
Love is overwhelming
Letting your insides out
Blind altercation
Open invitation
Breaking your guard down
Leaving the familiar
Air is getting chillier
Stepping outside your skin

No ordinary measurement
You turn your own light on
You turn your own light on inside of me
Closer the farther you've gone
Stronger the harder you fall in front of me

Walking through your garden
Pulling up the garlic
Getting our hands dirty
Kissing on the vampire, kissing on the werewolf
We have no enemies

No ordinary measurement
You turn your own light on
You turn your own light on inside of me
Closer the farther you've gone
Stronger the harder you fall in front of me
You turn your own light on
You turn your own light on inside of me
Closer the farther you've gone
Stronger the harder you fall in front of me
You turn your own light on
You turn your own light on
You turn your own light on inside of me
Closer the farther you've gone
Stronger the harder you fall in front of me
